## BODY THERAPY

### Wholebody Cryotherapy

- Decreases inflammation, pain, cellulite.
- Increases energy, metabolism and collagen production.
- Improves insomnia, migraines, asthma.

### Cryo Local

- Skin temperature dropped to 30 degrees in a local area.
- Reduces inflammation and pain.

### Cryo Facial

- Stimulates collagen production.
- Reduces fine lines, inflammation redness & bruising.
- Helps alleviate headaches & migraines.

### NovoTHOR Red Light Therapy

- A whole body red light therapy bed that uses near-infrared light to treat injuries, reduce pain, relax muscles/joints, and increase blood circulation.

### Thor LX2 Cold Laser

- Uses LED and laser to reduce pain, inflammation, and speed healing.
- Repairs joint, muscle, tendon, ligament and skin tissue.

### PEMF ElectronsPLUS

- Electrical charge (energy) is transferred through our therapist's hands and enters your body through touch.
- Decreases pain, inflammation & tissue necrosis.
- Helps increase range of motion, tensile strength in ligaments, nerve regeneration & loss of muscle function after surgery.

### SoftWave® - "stem cell machine" \*NEW

- Advanced shock wave device using electrohydraulic spark gap technology that diagnoses and treats acute and chronic pain.
- Increases blood supply, modulates inflammation.
- Stimulates & activates cellular repair.
- Remodels & regenerates tissue, accelerates wound healing and reduces acute & chronic pain.

### Neubie® Neuromuscular Electrical Stimulation (NMES)

- Uses electrical impulses through the skin to nerves in tissue to elicit muscle contractions and sensory impulses.
- Maintains or increases range of motion, increases local blood circulation, neuromuscular re-education, prevents atrophy, reduces spasms, prevents venous thrombosis after surgery.
- Manages and relieves chronic pain, post-surgical, and acute pain.

### Manual Therapy / Kinetic Chain Therapy

- Skillful use of the hands to mobilize/manipulate joints, massage and lengthen soft tissues, and to monitor and facilitate improved neuromuscular control.

### Rolfing®

- Rolfing Structural Integration is a form of therapy directed at bringing a person's bodily structure into a more harmonious state, exploring new possibilities of posture and movement.

### Regenerative Sports Medicine \*NEW

- Consult with one of the world's leading expert physicians, Dr. Rand McClain to optimize your hormones and overall well-being.
- Extensive experience diagnosing and treating a variety of health concerns including low testosterone (women and men), menopause symptoms, low energy.
- Uses cutting edge treatments including bio-identical hormone replacement therapy and ketamine therapy to address a variety of health issues as we age.

### Fascial Stretch \*NEW

- This technique leans into the shifting paradigms and treats the whole person, not just a body part. It is pain-free and uses constant circulatory, gently oscillating movements of traction and stabilization to decompress joints and expand space in the soft tissues.

### PRP Therapy with or without biologics **Call Us\***

- Performed by our Dr that specializes in regenerative medicine. Treatment can be done with biologics to enhance healing.

### Compression Therapy

- Normatec Pulse Pro & Squid Compression (Cold and Pulsed Compression).

### Hyperbaric Chamber Therapy

- Safe, relaxing and highly-effective way to deliver more oxygen to the cells of the body.

## SKINCARE & BODY CONTOURING

### Hydrafacial Elite MD

- Uses patented technology to cleanse, extract, & hydrate with super serums made with nourishing ingredients that create a gratifying glow.

### Procell Microchanneling

- Uses a stem cell serum, to improve the appearance of fine lines, uneven skin tone, wrinkles and scarring.

### Factor X - Rejuvenating Facial & Restorative Hair Treatment \*NEW **Free Consult\***

- By isolating the beneficial nanoparticles released by regenerative cells, FactorX uses these powerful messengers that may reduce wrinkles and fine lines and improve hair regrowth. FactorX is a proprietary product derived from perinatal tissues. No down time.

### Dermaplaning

- A noninvasive technique that removes the top layer of skin, improving skin texture and increasing absorption of moisture.

### Celluma Light Therapy

- Improves cellular health and repair in various skin and wound conditions.

### SculpSure **Free Consult\***

- Body contouring laser treatment proven to be a safe and effective way to permanently eliminate fat cells. This non invasive heat treatment takes 25 mins per area and reduces body fat evenly, giving you a more natural-looking result with no down time.
